

## Brian Dunnett and the Trains of Treasure Railway Exhibition Posters

As part of an *Art in Working Life* project Brian Dunnett conceived of a carriage travelling Australia with an exhibition of railway history posters created from the point of view of railway workers. This very successful exhibition did tour Australia and included songs and poems as well as graphic details of railway life and work.

These posters, now numbering 30, can be downloaded via the *Australian Railways Songs* research archive.<sup>1</sup>
